Hi Ehud,

I wish you a pleasant flight back.
I will meet MF soon and might call you.

Parasight would like to mention you on their website as part of the advisory board. Instead of asking them to look through Wikipedia for a short bio, I wonder if you have a summarized version of your bio that I can provide them with as a text to be put on their website. In any case, I intend to ask them to have us approve ahead of time any such text before it is uploaded to the website.

Best regards,
Doron
